Professional experience

Frontend Developer - Regate

15/11/2021 - 18/05/2023

- Creation and maintenance of a Finance Automation SaaS software, whose main features are to manage and record invoices, expenses, pay and be paid.
- Creation of features with React and Typescript, in direct collaboration with a product manager and a team of 16 developers, as part of a fast-growing start-up.
- Constant improvement of the performance and maintainability of the features using unit tests (Jest) and end-to-end tests (Cypress).
- Tech stack: React (React Query, Styled-components), Typescript, Ruby on Rails, PostgreSQL.

Frontend Developer - Mailjet (via Attineos)

12/02/2018 - 17/09/2021

- Creation and maintenance of web pages and features written in React under an Agile process, within a team of 12 developers.
- Development and maintenance of a React component library using Styled-components.
- Constant improvement of the performance and maintainability of the features using Jest unit tests.
- Creation and management of a micro-frontends ecosystem using Lerna monorepos, in order to account for the needs of two different platforms.
- Tech stack: React (Styled-components, Redux), Javascript (jQuery), CSS3 (Sass/Less), PHP (Zend, Twig)

Education

Professional Certificate: Webmaster/designer - CNFDI

2015 - 2017
